

## **Language contact in Berlin-Turkic and Iran-Turkic: Shared features**

Elisabetta Ragagnin

This lecture will present a contrastive view on present-day language contact situation with Persian among today's spoken Turkic languages of Iran, including Oghuzic varieties (Azeri, Turkmen and Khorasan Turkic) as well as the non-Oghuzic Turkic language Khalaj. The analyzed data will be compared with Berlin-Turkic, a Turkic variety that shares several features with Iran-Turkic.
