

Colloquium:
Progress in Brain Language Research
Brain Language Laboratory

Time: SoSe 2014, Tuesdays 2-4pm c.t.

Venue: JK 31/122 Geschäftszimmer (Habelschwerdter Allee 45), FU Berlin

Date	Speaker	Title	Venue/Time change
08.04.2014	Toshimune Kambara (JSPS, Keio University)	Neural Changes for Association between Single Word Forms and Multiple Referents	4-6pm c.t. , room JK 28/130
	Markus Ostarek (University College London)	Embodied semantics and a multimodal approach to language processing	
	Bora Meraj (University of Oxford)	Delusions of alien control and language disturbance in schizophrenia	
15.04.2014	Paper discussion		
29.04.2014	Dr. Rachel Moseley (Autism Research Centre, Cambridge University)	Testing theories of autism through brain categorisation of sounds and language	
12.05.2014 Monday	Prof. Dr. Detlef H. Heck (Dept. of Anatomy and Neurobiology, University of Tennessee Health Science Center)	Breathing controls brain activity: Neocortical oscillations phase-locked to respiration	
13.05.2014	Paper discussion		
20.05.2014	Dr. Guglielmo Lucchese (Brain and Language Lab, FU Berlin)	Syntax and Semantics in healthy and aphasic brains: an EEG investigation	
27.05.2014	Prof. Dr. Erich Schröger (Institute of Psychology, University of Leipzig)	Attention and Prediction in Audition	6-8pm c.t., room JK 29/118
03.06.2014	Malte Schomers (Brain Language Lab, FU Berlin)	Network connectivity structure and its functional effects	
10.06.2014	Felix Dreyer (Brain Language Lab, FU Berlin)	Semantic word category processing investigated with TMS	
16.06.2014 Monday	Prof. Dr. Dr .Friedemann Pulvermüller (Brain Language Lab, FU Berlin)	Brain connections of language and action / Verbindungen der Sprach- und Handlungsmechanismen im menschlichen Gehirn	4pm c.t., Grad School of Mind and Brain, Humboldt Universität, Luisenstr. 56, room 144
24.06.2014	Dr. Luigi Grisoni (Brain Language Lab, FU Berlin)	The sounds of meaning – from English to Italian	
01.07.2014	Dr. Jeff Hanna Dr. Cora Kim (Brain Language Lab, FU Berlin)	Dr. Hanna – TBA Dr. Kim – Evidence for constructional meaning	
02.07.2014	Henny Yeung Laboratoire Psychologie de la Perception, Université Paris Descartes	How learning to talk can influence (audiovisual) speech perception in infancy	4-6p.m., room L 113
15.07.2014	Closing session		

Future talks:

- Luciano Fadiga (University of Ferrara, Italy), 8 September 2014, 6-8 p.m.
- Prof. Risto Näätänen (University of Helsinki, Finland), 20 November 2014, 6-8 p.m.
