

Peter Scollin:

*MAKE THEM LAUGH - Practical tips and tricks*

Workshop-Beschreibung zum Studientag der Didaktik des Englischen an der Freien Universität Berlin am Freitag, den 14.11.2014.

My workshop is about the use of comedy in English teaching.

What constitutes a funny situation? Which role plays are good for which age groups?

This workshop will be a “hands on” workshop rather than theoretical. I want the participants to play out some short scenes from English plays and analyse what is funny about them. What is the difference between physical comedy and verbal comedy?

I would like to simulate a classroom situation in order to examine the practicalities of doing scene work with a large group of students in a confined space

If time permits, we will also work on improvisation, theater games, the use of glove puppets and singing.
